DATA SHEET DS C.002

CEBOFREE BLACK

Description

Water-based multichromatic finish for interiors, easy to apply and extremely versatile.

Packs available

1 Lt - 2,5 Lt

Staining

The product can be coloured with the CeboColorStation tintometric system or with the CeboKit universal dyes in the dosages shown on the colour charts. Different colors are possible from those of the folder, varying the dosages provided and/ or mixing the dyes. Since you have to prepare several packs of the same color it is advisable to use dyes and products with the same batch of production.

Dilution

Unforeseen.

Mixing

Mix the product well before use.

CeboFree after mixing with dyes and additives should be used within 48 hours.

Suitable supports

All plaster, lime and civil supports are suitable. Check that the funds are perfectly clean, dry and uniform in appearance and absorption.

Application

After proper colouring and mixing with the chosen additive, apply CeboFree Black in a brush coat, before complete drying, go over the surface with the appropriate Caress spatula, exerting a slight pressure.

Application information is contained in videos, folders and catalogs

Technical specifications

Drying: 6-8 h
